## Data visualization

```
#scatter plot
```

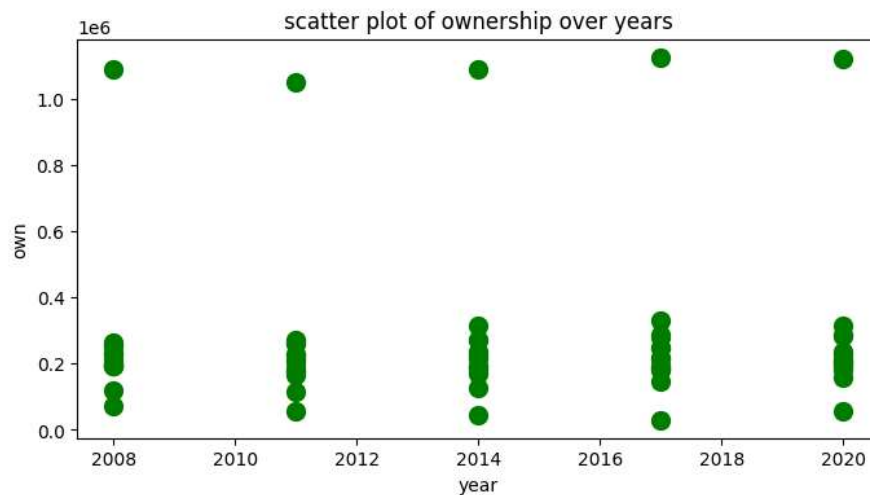

```
#define the desired figure size
plt.figure(figsize=(8,4))
```

```
#create a scatter plot
plt.scatter(data['year'],data['own'],c='green',s=100)
```

```
#setting x and y labels
plt.xlabel("year")
plt.ylabel("own")
```

```
#adding title to the plot
plt.title("scatter plot of ownership over years")
```

```
#display the plot
plt.show()
```

## Line Chart

```
#define the desired figure size
plt.figure(figsize=(8,4))
```

```
#create a line chart
plt.plot(data['year'],data['own'],color='purple',marker='s',linestyle='--')
```

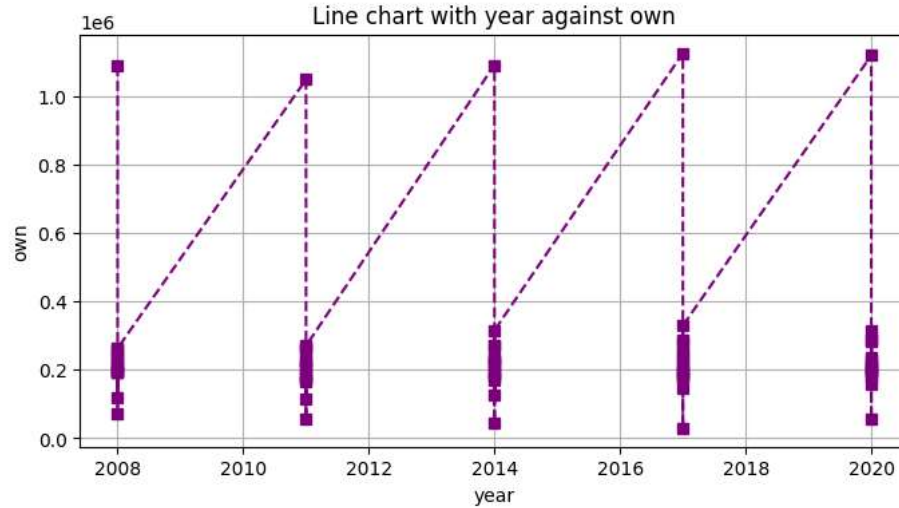

```
#setting x and y labels
plt.xlabel("year")
plt.ylabel("own")
```

```
#adding title to the plot
```

```
plt.title("Line chart with year against own")

plt.grid(True)

#display the plot
plt.show()
```

### Histogram

```
#define the desired figure size
plt.figure(figsize=(8,3))

#create a histogram
plt.hist(data['income'],bins=10,edgecolor='black')

#setting x and y labels
plt.xlabel("Income")
plt.ylabel("Frequency")

#adding title to the plot
plt.title("Histogram of income")

#display the plot
plt.show()
```

### Bar chart

```
#define the desired figure size
plt.figure(figsize=(8,4))

#create a bar chart
plt.bar(data['year'],data['own'],width=2,color='skyblue',label='ownership')

#setting x and y labels
plt.xlabel("year")
```

```
plt.ylabel('own')
```

```
#adding title to the plot  
plt.title("Bar chart of ownership over years")
```

```
plt.legend()
```

```
#display the plot  
plt.show()
```
